44th National Selection Conference of EYP Greece

EUROPEAN **YOUTH** PARLIAMENT
ΕΛΛΑΔΑ GREECE

Dear EYPer,

Thank you for taking the time and interest into reading the Vision for Editor/ess for the **44th National Selection Conference of EYP Greece - Thessaloniki 2022!**

I am Enrico Zonta, and I will have the opportunity of presiding over this NSC: together with the wonderful Head-Organisers and the NC, we are looking for an individual (or a duo of individuals) willing to join us into **making this event the session of everyone's dreams!**

I must admit that working with EYP Greece in the past has been and is still an awesome experience, therefore I would recommend everyone interested to actually pursue and apply in the role of Editor/ess: this event will not disappoint your expectations.

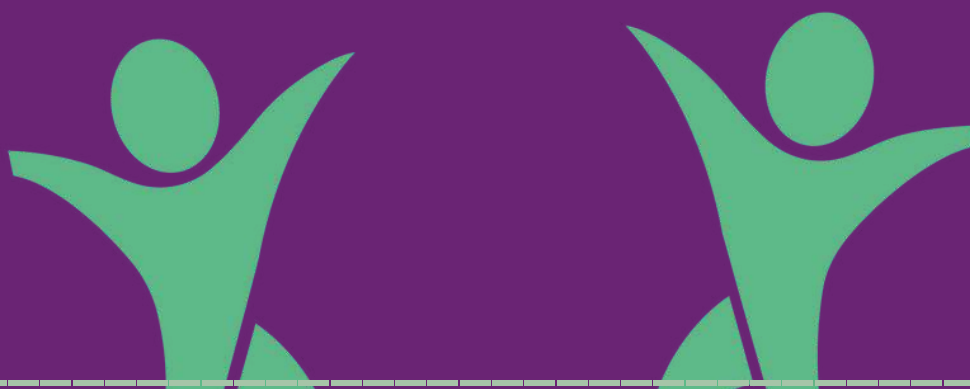

To start with, together with the Leadership, we aim at establishing a **fun, safe, welcoming, and trusting environment** for the whole of sessions' participants: more specifically, we would like all the teams to interact with each other and be actually a dynamic part of the session. Therefore, we would like to see the Media Team, and all other teams, to be **involved and interactive** within the Officials' team, to form an **integrated and cohesive group** of volunteers.

More specifically, concerning the Leadership, we aim to establish an open, transparent, trusting, and **communicative environment**. Everyone of us will be working hard to achieve a common goal, which is that of making the best experience possible for all participants: therefore, whenever any issue arises, we would like to **openly discuss it straight away and ensure that everyone is on board for the solution**, so as to avoid any communication issues and any tension. In such a way, **knowledge-sharing between the Leadership** itself will also be possible: in order for all of us to project knowledge and skills to our team members, why not also **share the knowledge we have between ourselves**, to prepare better for the session and to establish common goals and projects? Therefore, we are looking for an individual (or duo) that is interested in working together in such an environment and contribute actively in their role within the Leadership.

Pertaining to the Academic and Media Cooperation, we will be working under the theme *"Wind of Change - Youth Initiatives in environmental consciousness: Working towards sustainable development of societies"*: the topics will, therefore, focus mainly on sustainability and its daily facets - and the Media team will also play an **active role in shaping and integrating** the session theme in their project and activities. I am looking forward to establishing - together with the Editor/ess's ideas - a **profitable cooperation** between the Academic and Media team. From as early as the Topic-Overview writing process, **Media Team Members and Chairs can be paired and work together** on finding graphical/visual ways to explain difficult aspects of the topic: in such a way, not only the delegates' understanding would be enhanced, but also the Officials would start working closer and prepare for the event. Such a close relationship could also be **continued during the event**, in which Media Team members could play a more present role in their Committee of reference, easing and facilitating their work in developing projects.

I hope that these ideas resonate with you and make you dream of being in Thessaloniki between the 15th and the 19th of December!

We encourage everyone interested to apply, and **we are truly looking forward to seeing your passionate ideas and reading your applications!**

See you in Greece,

Kind regards,
Enrico Zonta and the
Head Organisers Committee
